Wholesale Soap Establishment!

AMERICAN CREAM SOAP COMPANY,

Incorporated by Act of the Legislature of the State of New York, and secured by Letters Patent under the LAWS OF THE U. STATES, A. D. 1851.

CEAS W. ENNISON & CO.

SOLE AGENTS IN THE STATE OF MAINE

NEW P. CO are now prepared to manufacture and offer to the trade an unsurpassed article of the Soaps of the American Cream Soap Co in all their varieties, at their Factory,

Nos. 3 & 33 UNION ST., Portland, Me.,

consisting of

American Cream Soap in Bars Laundry and Manufacturers in Barrels and Casks To let, Shaving Shaving Cream, Transparent Cream Soap Preparation, &c., &c.

These Soaps are presented to the public, after having been thoroughly tested by numerous and friends, as the best **Labor Saving Articles** ever discovered, and we offer them to the public as every way worthy of their confidence.

They do the work in the Laundry in nearly every water, either **Soft, Hard, or SALT**; dispensing with Boiling or Rubbing and the Wash board—consequently a large amount of Fuel and wear and tear of clothing is saved and not one fourth the amount of Labor is required to do the washing of a family. The tendency of these Soaps is to soften the clothes and loosen the hold of the dirt without injury. Washing alone by simply rubbing the Soap on the parts of clothes most soiled, and placing them in water sufficient to cover them—there let them remain a few hours, (or all night if convenient,) then with a slight hand rubbing and good rinsing, they will be perfectly clean, and will entirely to the good delicate fabric. Woolens, Silks, Shawls, &c., may be washed with perfect safety. Cotton Goods, Prints of any colors that will fade in water will also be washed with these Soaps, according to the directions, will not change, but remain fast, and the colors rendered more brilliant. For washing Woollens, Paints, Oilcloths, Mirrors, Glasses, Paintings, Lamps, Silver Ware, &c &c., these Soaps are superior to any in the market. The cost of these Soaps is no more than of those ordinarily used, and besides this the great wear and tear of clothing consequent upon the old method of hard rubbing upon a board machine, pounding barrel, &c., &c., and the necessity of Lining, is wholly avoided.

We ask for this Soap a fair trial, pleasing to trust to its own merits rather than resort to the publication of long list of certificates from those who have used it where it has been manufactured, which we have in our power to do whenever necessary.

For sale, Wholesale only, at 31 & 33 Union Street, Portland, and retail by Grocers generally in city and country. Agents supplied on liberal terms. All orders addressed to C. W. E. & Co., postpaid, Nos. 31 & 33 Union Street Portland, Me., will receive prompt attention.

SWAIM'S PANACEA has been for more than forty years constantly in use in this country and in Europe, and its extraordinary cures, by the certificates of such of the citizens as could be obtained, would of themselves fill a large book, which may be had gratis from any agent in Baltimore.

It has been no inconsiderable part of private practice, and has had the effect to bring to the recollection of 120 most celebrated Physicians, and other eminent persons, as testimony of

D. Gibson, M.D., Prof. of Surgery, Pa. University.
Valentine Mott, M.D., " " " N. Y. "
W. P. Dewees, M.D., " " " Phila. "

Hon. Thos. H. Benton, U. S. Senate, Missouri.
And many other Eminent British Army & Navy Officers, &c., &c.

And also the testimonials of cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Physicians of Hospital Majesty in every country and being of proficient preparation, it may be given to the most tender infant.

The reputation it has for so long a period of this article, usually sold at $1,50 per bottle, containing three times as much as other bottles for $1.

SWAIM'S—PANACEA—PHILAD'A

and having the name James Swaim stamped on the sealing wax, and written on the label covering the cork, and a splendid engraving for the side of the bottle composed of a perspective Ionic work, compressing nine differently cut, which has been formed for the exclusive use of the proprietor, by Draper & Co, bank note engravers, of Philadelphia. In this country a infringement of the law Swaim's copyright secured.

WEDNESDAY, JULY 12, 1854.

WHIG NOMINATION.

FOR GOVERNOR,

ISAAC REED,

OF WALDOBORO.

The following communication is from a plain spoken, but honest-hearted sea-captain, who likewise, as his signature indicates here to fore has been a supporter of the so-called democratic party Nebraskaism has cured him of that, so far as following the "regulars" is concerned, and he now desires an opportunity of "freeing his mind."

To the Editor of the Whig and Courier

I have heard those Northern Senators and Representatives, both purchased and unpurchased, who voted for repealing the Missouri compromise act called dough faces, but I think this name a very improper one I have, the people, of the free States are the real highborn, and those Nebraskaites are open and avowed enemies of the free States of the North If these men lived at the South, and should profess principles and utter language as treasonable to the slave States as they do against us, they would be hanged without judge or jury Add there are editors of newspapers among us who have sold themselves to slave drivers for their votes For some years past they have been constantly making concessions to the South for the sake of slave driven votes They have joined hands with them to enslave their own brethren in the free States, and by supporting the Nebraska bill they have virtually agreed to do so. If you read their papers you will be able to tell when the driver applies his whip, for they will yell at every crack By following such men we are the dough faces There is no other part of the world where they would even be allowed to run at large. Those men who voted for the Nebraska bill, together with their supporters, have, in my opinion, sunk to the lowest depth of infamy, and I know no word in the English language that can express their meanness.

The slave drivers say they make good servants, and that when they stoop to receive their favors they look down upon them with scorn, and that they despise the traitor who they love the treason, and also say that they go to Washington and sell themselves to the highest bidder.

Now, sir, shall we be brought under bondage to the South by such men as these? God forbid! How shall we prevent being brought under a slave despotism, among our enemies have the majority in both houses in Congress The free States should hold a convent on and take measures to protect themselves.

If a man speaks against slavery at the South they have laws to imprison him, and if we carry a colored man to their States in a vessel they imprison him as long as the vessel stays there, for fear of an insurrection. Now, if they can imprison innocent men by law, why cannot we make laws to punish guilty ones? Is it because we are dough faces? I think it is.

The slave owners assert their "Sta es rights," and "popular sovereignty" Let us try the same and set up to it. As long as we are easy and let the Southrons drive us from one position to another they will follow us up. You may depend upon it every step we allow them to back us, the weaker we are and the stronger they are and the harder they will push us — Now is the time to fight, we both understand each We have a strength of heart if we will use it.

The South is like a great standing army of disciplined soldiers There are traitors among them, slavery binds them together.

We have sent men to Washington to legislate for us, who, it has been well said, misuse design d for the State prison, and if we indulge evil again in like manner we shall receive the consequences I think there never was a people looked upon with so much contempt as we of the North are by the Southrons I do believe there ever was a people in a country so The scheme which they have commenced is a gigantic one, and will require all our strength to ward off the blows that they have aimed at our liberty Of this scheme the Nebraska bill is but a commencement It was, I think, gotten up in some Southern convention previous to the election of 1852, and the candidates were promised the slave drivers' votes only on condition that they would carry the scheme out, if elected Thus Douglas only acted the part of Judas Iscariot and that, I think, completely suited his nature The great wrong which this scheme inculcates against the free States was calculated to carry the whole Southern vote, and that, with the votes of government officials of the free States and their dependents and followers would secure them the Presidency and the other offices in his gift forever Can any man of common sense in the free States look upon this scheme with indifference? I think not, unless he has lost all sense of honor and of shame and of self interest and respect for self and family If the South succeeds in carrying out its scheme of slavery extension, we shall, I think, be brought under a worse despotism than Russia is now under Democrats! Republicans! you will be the men who will have to suffer most. You will have to work more than half the time to pay Southern soldiers to keep you down — These Nebraskaites will call themselves democrats when they are electioneering, but do not believe them for they have left every principle of democracy to follow the Nebraska scheme, got up and supported by southern men of both parties, to buy territory or slave States. They have just made the nation pay ten millions of dollars for a piece of the fag-end of the Rocky Mountains and a small valley south of it, for the purpose of building a railroad to transport slaves from the southern States into California. I know that the slave owners are determined to make California a slave State. They have many slaves there now, and hold them there by bribing the Legislature of California. The free States have nothing to say in Congress and have not had for the whole session, although we have many good and true men in Congress. The Nebraskaites have joined with Southern federalists to put us down. Their avowed purpose is to give the slave States two or three times as much territory as the free States have, consequently they can always out-vote us and have everything their own way. No! they are no more democrats than Judas Iscariot was when he sold our Saviour. The democrats must try and wipe off that stain, by sending true and honest men to Washington as Senators and Representatives, to repeal that infamous Nebraska bill and ugitive slave law, and prohibit slavery in the District of Columbia, if not in all the territories belonging to the United States

A DEMOCRAT.

ISAAC REED is a self made man, about 45 years old, and for the last twenty years he has been almost constantly in public life in the State and national governments We had him in the House of Representatives and Senate of the State several years, in the Executive Council we believe, a Trustee of the Insane Hospital and Representative to Congress from what was then called the Coast District, supported by the Whig and Free Soil parties. In all these various situations he has acquitted himself with distinguished ability, acquiring honor himself and reflecting it upon his constituents. He is a man of quick perceptions, sound discretion and extensive political knowledge and experience, firm and decided in his character and progressive in his views and opinions, and a safe man to entrust at the helm of State. He has always been what the world calls a lucky man The prestige of success has attended him His nomination has always with a single exception been the harbinger of victory. All events have worked together to help him along, and he has always been put on the track at just the right time He is a gentleman in his deportment and intercourse with the world, and especially popular and beloved by a large circle of friends, neighbors and acquaintances, and pos sessing men that he has assisted in the up-hill of life. He is most emphatically the labo ing man's friend, and the people's candidate and we cordially welcome him to the Gubernatorial field —Kennebec Journal

FASHION AND FAMINE, by *Mrs Ann S Stephens* New York Bunce & Brothers 1854

This new work by the talented and American authoress, above named, will be hardly welcomed by the reading public

So far as the literary merits of the work are concerned, no better guarantee than the name of the gifted authoress could be required—yet, we venture to say, that nothing she has hitherto written, contributed, or will contribute, more substantially to her fame than the production to which we refer The subject chosen is one which has never yet had full justice done it, in an American novel The plot is full of interest, portraying and bringing in thrilling contrast the two extremes of city life.

Many of the characters introduced into the novel are drawn from real life, while there are incidents in the plot which have their recognized originals in occurrences which have actually taken place in New York. An elevated and healthful moral sentiment pervades the whole work—a characteristic which cannot but operate as a refreshing corrective to the corrupt and corrupting emanations which have literally flooded us of late years, in the shape of novels founded on local incident. The book is certain to create not only a sensation in the world of letters, but to an impression in those walks of society, whose follies and foibles, weakness and crimes even, it so faithfully depicts.

WHIG NOMINATIONS.—The "Independent Democrats in Mass Convention" held at Belfast last week, nominated for Senators, Theophilus Cushing of Frankfort and Nathan G Hatch-born of Prospect For County Commissioners Isaac Woodman of Searsmont

An explanation of the mysterious marks upon houses has been given us, the that they were made (or some of them at least) by a very innocent and worthy travelling hair worker, who took this method of identifying the houses where he left his card, in order that he might call again after work If this be the true explanation, the fact shows how a great deal of talk and conjecture may arise from very simple and plain matter, in certain conditions of the public mind.

THE FINE ARTS. We would call the attention of those of our citizens who are admirers of good pictures, to the large and superb collection of European paintings now open for examination at Acadian Hall, Mercantile square and to be sold at public auction on Friday morning next, by R. OLDTOWN, JULY 10, 1854.

To the Editor of the Whig and Courier

During the past week, we have began to feel a drouth quite sensibly. The fore part of the week the water fell rapidly, owing, no doubt, partly to shutting down the gates upon the West branch, and partly for want of rain. The latter part of the week the river has raised a little, caused by showers upon the Piscataquis The rains are doing good business, but do not go so fast as last week, when the water was higher

Two evils combined, cause some considerable difficulty in getting logs from the main boom to Oldtown. The first is the blowing away of a portion of the ledge in the Cook, allowing more of the water to go down that channel The other is the large quantity of logs in the boom, backing the water up and causing it to flow through the Cook. These two reasons cause the water, a portion of the time to flow up the back way, in which case, logs cannot be run to Oldtown from the main boom. I know of but one remedy that would cure the evil, and that is to erect dams on Oldtown and Pushaw falls of equal height and of such an elevation as would be prudent, and not materially effect other interests. I speak of this for the purpose drawing the attention of the public to the subject, for the authority to erect such dams must be derived from the Legislature It is probable that the rafting of logs at the booms will be greatly retarded, unless the gates upon the different branches of the river are hoisted, to allow the water freedom to go dancing merrily on its course to the great deep

We have had some warm weather up here the past week, and judge from that you may have had some at your place Vegetation is progressing rapidly Yours &c

Deaths by Drowning.

ORLAND, July 10th, 1854.

To the Editor of the Whig and Courier

The body of Mr V Mank, the man that was drowned in the river at this place some three weeks since, (from Captain Horace Winchenbach's vessel of Waldoboro) was found to day off the head of J Dorr's wier He was about 33 years of age

Nehemiah Devereux, aged 19, was drowned in Dedham on the 4th of July, while bathing, in company with others. He could not swim before this time, and, strange to relate, he swam off into deep water and sunk. His friend dove and caught hold of him, and they both went to the bottom, but he could not rise with him, as he broke his hold and barely escaped with his own life. Respectfully yours,

R. T OSGOOD.

The Japan treaty was signed by Com. Perry on the part of the United States Government, and by three of the principal Princes of the Empire on behalf of the Emperor, on the 3 st of March, 1854 The treaty has opened to the commerce of the United States two ports, Ghuchoodda in the Strait of Sangar, a principal port for Whalers, and Schimoda at the entrance of Jeddo Bay, which will be the principal port for trade and the depot for coals.

The Chinese steamers will be supplied with coals brought to that place from the interior — The Japanese contract to have 10,000 tons of good coal at Schimoda, and the supply will always be kept up.

The jury in the Walker divorce case could not agree and were discharged by the court — Eleven of the jurors were in favor of a verdict for Mrs. Walker, they have signed a card stating their belief that Mrs. Walker is a high-minded, pure and virtuous woman, and that they deeply sympathize with her in that the deep-set disposition of one of the jurors would deprive her of her just and lawful rights.

Referring to the withdrawal of the Russian forces from the principalities, the London Times says:

"In this important movement, which has already changed the whole aspect of the war, we are more inclined to discern the results of military reverses than of a political combination The Russians have retreated for the simplest and most peremptory of all reasons—because, having failed in their attack on Silistria, they could not hold a position south of the Danube, and because an attempt to retain Wallachia, with the Austrian army on their base of operations, might have compelled their entire army to lay down its arms. They are, in short, defeated

The losses of the Russian army since it entered the principalities are credibly stated at upwards of 50 000 men The confidence of the troops and the pride of the nation are shaken and cast down Not only is Little Wallachia evacuated and the Danube crossed, but the works of the Russians at Giurgevo are abandoned and the Russian forces have retired from Bucharest

Vienna telegraphic advices dated at Varna, June 15, state that the Duke of Cambridge with the first division of the British army, had arrived there on the preceding day

"The Russians are in full retreat to Moldavia

The Russians in the Dobrudscha are also retiring

"A Turkish army 20 000 strong, is advancing to relieve Rassova.

"Omer Pasha is advancing with his entire force to the Danube

The Russians have taken prisoners two newspaper correspondents, on the right bank of the Danube

Constantinople letters of the 19th confirm the news that the Austrians will occupy the principalities till the conclusion of a general peace

It is said that the Western Powers will promote the raising of a loan of 400,000,000 piastres by the Porte

Turkish Success in Silistria.

The gallant defence of Silistria, and at length the retreat of the Russians are events of great significance The siege of this important post commenced about the 17th of May, was raised on the 16th of June, and in the interval the besieged have fought with a determination worthy of the most brilliant fighting days of the Turks. The losses of the Russians have been very great It is remarkable that as many of their chief officers should have been wounded To the list already named are now added Prince Gortschakoff and Prince Paskiewitsch, not dangerously wounded, and General Sheldern whose life was in danger at last accounts. The carnage among the men is great They were led up to the walls of Silistria, not to conquer, but to be slaughtered by thousands. At the storming of June 18 b. they appear to have suffered the most, and for the two succeeding days were occupied in taking away the dead, six thousand are said to have fallen On the Turkish side the loss has been severe, for the noble commander Iusiffan himself a host, and was killed by a grenade — Omar Pasha, on hearing of his death, detached 30,000 men as to manoeuvre for battle, and under cover of this movement, threw 2000 Turks into Silistria This defence, and the success that followed it, have been achieved without aid from the allies, It is a heavy stroke for a dying man to give Perhaps Nicholas may come to the opinion that, after all, the Turk is not half as sick as he would him have him to be.

The Turks served Russia in a similar way in 1828 The Russians, that year sat down before Silistria, July 21, A series of sorties, attacks and bombardments for four months succeeded and at length, November 10th, about a week after two days and two nights continual bombardment, the seige was raised and in getting off the invaders lost largely of their baggage and all their horses Then the Russian doctors had quite a consultation over the "sick map" We have before us the profession al opinions of such as Nesselrode, Prince Lieven and Count Pozzo di Borgo on the case. Take the diagnostic of the latter, Nov 12 1828 remembering that the Turks had got on some ways in fortifying their army Borgo writes that "the Emperor put the system to the proof, and his majesty has found it to manifest systems of physical and moral organizations hitherto unknown. If the Sultan has been enabled to offer a determined and regular resistance before he had consolidated upon the elements of his new plans of reform and ameliorations, how formidable should we have found him had he had time to give them more consistency" Now the work of defence, in 1828 was as boys' play compared with the same work of 1854, for now the Russian has put himself out upon the seige The problem Borgo puts can now be answered.

The adhesion of Austria to the allied cause, with an army of three hundred thousand, now definitively settled, and the success of the Turks, will enable the Anglo French to push forward their plans for the campaign. This is said to be a grand, combined attack on the Crimea by the Anglo French, by sea and land, on the one side, and by Circassians on the other — Important news, therefore, may soon be expected from this quarter —Boston Post

Never failing Remedy—Among the immense number of patent medicines discovered, there are but very few that possess any real merit Of this class rises the discoveries of Dr Holloway, a celebrated English Physician, may be ranked as among the best, both on account of the character of the ingredients of which the medicines are composed and the variety of diseases which have been effectually removed by their use. The Professor has established a house at 38 Ann street, for the sale of the same throughout the Union, where parties may be supplied with them at wholesale.—New York National Democrat.

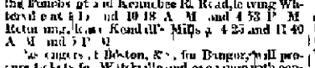
KENNEDY'S



The Greatest of the Age!

DR KENNEDY, of Roxbury, has discovered in one of our common pasture weeds a remedy which cures *DISEASES OF THE BLOOD* more certainly than any other known to the common People. He has tried it in most places in this country, and has cured in two thousand cases out of every two hundred certificates of its value, thoroughly investigated, not one in fifty will be found to be worthless. Two Bottles are warranted to cure a worm in the worst kind of case.

One to three bottles will cure the worst kind of pimples on the face.

Two to three bottles will cure the worst case of ulcers in the mouth and stomach.

Half a dozen bottles are warranted to cure the worst kind of scrofula.

One to two bottles are warranted to cure all humors in the eyes.

Two bottles are warranted to cure running in the ears and blotches in the hair.

Two to six Bottles are warranted to cure corrupt and running ulcers.

One Bottle will cure all erruptions of the skin.

Two Bottles are warranted to cure the most inveterate case of ringworm.

Two to three bottles are warranted to drive the most desperate case of rheumatism.

Three to six bottles are warranted to cure salt rheum.

Two to four bottles will cure the very worst case of barber's itch.

A benefit is always experienced from the first bottle, and a perfect cure is always when the above quantity is taken

Nothing looks so impossible to those who have not had the wonderful medicines of the day as to see a case soon cured, go wrong upon the same basis, and the cold stone walls should cure every tumor in the street but it never will. Fact—Why is it that every other day is so short. There are so many things to be done, but until some one has the gift of knowing how to do all things, and has seen many looking children, whose age has not reached double, and to appear at this time, but it will double, and to appear at this time, but it will double, and to appear at this time, but it will
